

Add outdoor lighting **with confidence.**

UNIQUE LIGHTING SYSTEMS | CEDIA
The Association for Smart Home Professionals™

Unique Lighting Systems®
CEDIA Partner Program

Outdoor lighting can be a powerful way to increase project value and extend your role beyond the connected home. The Unique Lighting Systems Partner Program gives integrators the training, design support, and field expertise needed to enter the category with confidence and deliver exceptional outdoor experiences.

Training, design support, field expertise and premium products to help integrators grow their business without adding complexity.

01 **Grow revenue without adding complexity**
Expand your business into outdoor lighting with a proven support system designed to help you win projects and deliver results.

02 **Design support that helps you win**
Access CAD layouts, photometric plans, fixture recommendations, and proposal support — without building an in-house lighting design team.

03 **Training that gets you selling faster**
Whether you're new to outdoor lighting or looking to expand your capabilities, our education programs help shorten the learning curve and build confidence.

04 **Expertise when you need it**
Work with experienced lighting professionals who can provide guidance on projects, installations, and customer consultations.

05 **More than products. A partner in your success.**
For more than 30 years, Unique Lighting Systems has helped professionals build successful outdoor lighting businesses. Now we're bringing that same experience, support network, and proven approach to the CEDIA channel — helping integrators create premium indoor-outdoor experiences while opening the door to new growth opportunities.
